The US-ACADEMIC Preparation

American E-Learning Investments offers a program designed specifically for talented international students with limited English proficiency who aspire to pursue an American degree in the United States. The US-ACADEMIC PREPARATION comprises a course of study lasting six, twelve, or eighteen months, depending on the student's language ability and academic background.

Upon successful completion of US-ACADEMIC PREPARATION, participating students may be admitted to a college or university in the United States.

ADVISING AND TUTORING

During the first week of the US-ACADEMIC PREPARATION, students will participate in a comprehensive assessment of their individual needs for verbal and written communication, as well as the academic preparation and personal flexibility essential for success in the American system of higher education. This assessment and the resulting program aim to best students' specific needs and accelerate their adaptation to the American model and, thus, their progress toward program completion.

The assessment will determine the curricular sequence for achieving the set goals. Regardless of course selection, students will be supported by a personal mentor/advisor, experienced faculty, and caring and knowledgeable academic and student service staff.

THE PROGRAM'S GOALS AND EXPECTATIONS

US-ACADEMIC PREPARATION has five distinct goals for its students:

1. To have students acquire English language skills and fluency at a level above that required for completing a degree or diploma at a college or university in the United States.
2. To have students with a bachelor's degree acquire specific skills to take the GMAT and GRE tests for admission into graduate schools.
3. Prepare students to face the rigors and expectations of the academic culture of American universities by preparing them for a comfortable transition to American life and culture.
4. Students may acquire at least fifteen (15) transferable academic credits in an American university.
5. Students who complete the US-ACADEMIC PREPARATION can be assured that they will be able and expected to enroll at a competitive and appropriate university in the United States. Students who prefer to tackle undergraduate studies online or whose U.S. visa status is in question will be admitted and can transfer credits earned immediately. US-ACADEMIC PREPARATION to an appropriate degree program at St. Thomas University, Global American Learning.
